The New Twenty-Cent Silven Coin.

—The design of the twenty-cent silver piece authorized by act of Congress of March 3, 1875, was selected and approved on Wednesday by Hon. R. R. Linderman, Director of the Mint. The obverse design contains a sitting figure of "Liberty," with the word "Liberty" inserthed on the shield, the whole surrounded by thirteen stars. Beneath the figure the date "1875."
On the reverse the figure of an eagle surrounded by the insert piton, "United States of America," and under the eagle the words, "Twenty Cents." At Dr. Linderman's suggestion, the edge or periphery of the coin will be perfectly smooth, in order to distinguish it from the twenty-five cent coin, which bears a reeded or fluted edge. As the piece is too small to admit the legend, "E Pluribus Dumm," or the motte, "In God we Trust," both have been omitted. The new coin is mainly intended for circulation in the Pacific coast States, where the want of such coin has long been felt in making change, and where the lowest coin in circulation is the dime or ten cent silver piece.

The President stated the object of the meeting was to consider an ordinance establishing the rates for licenses for the year commencing the first Monday in May next. The ordinance was read, and it holds alled with the same figures as those of last year, with but few exceptions.

During the voting on the above motions, the members of the Council who sat near the railing were much annoyed by liquor dealers in the lobby, who were very demonstrative in expressing their views upon the license question. Mr. Handlan observing them, called the attention of the President to the fact and ask that they be compelled to retire. The liquor men therefore precipitately retired, without waiting for the police to compel them to fall back, as requested by the President. COFFEE HOUSES.

The license for ordinaries, which was last year \$250, was, upon motion of Mr. Long, fixed at \$125.

The People Want Proof.

There is no medicine prescribed by physicians, or sold by druggists, that carries such evidence of its success and superior virtue as Boscher's German Sysur for severe Coughs, Colds settled on the Breast, Consumption, or any disease of the Throat and Lungs. A proof of that fact is that any person affilicted, can get a sample bottle for 10 cents and try its superior effect before buying the regular size at 75 cents. It has lately been introduced in this country from Germany, and its wonderful cures are astonishing every one that uses it. Three doses will relieve any case. Try it. Sold by all Druggists. The People Want Proof.
